https://github.com/Oniel1721

Full-Stack developer with more than 3 years of experience with **TypeScript & NodeJs**. Experienced developing software for the E-commerce and Healthcare industry. Love teaching new talents and helping them grow professionally. Wish to lead teams with impact around the world. Looking to work in teams where I help others grow with me.

EXPERIENCE

Vertrical Inc — *January 2023 - Present*

Senior Software Engineer — January 2023 - Present

- Developed features such as **orders**, **payment, auth, quizzes** and **recommendations**.
- Solved high priority bugs.
- Followed security standards such as **HIPAA** and **GDPR**.
- Accelerated development experience creating automatization tools.
  Tech Stack: TypeScript, NextJs, NestJs, AWS, CyberSource, Docker.

Intellisys D. Corp, VacunateRD — *April 2021 - December 2022*

Mid-Level Full-stack Developer — March 2022 - December 2022

- Led a team of juniors and interns on an internal project to manage **talents** and **skills**.
- Encouraged good practices such as code review, pair programming, mentoring, and clean code.
  Tech Stack: NestJs, Nextjs, TypeScript, PostgreSQL & Docker.

Junior Full-stack Developer — July 2021 - February 2022

- Accelerated the COVID-19 vaccination registration process to +10M people (Dominican Republic citizens) by developing and leading a team of +5 developers.
- Reduced errors implementing unit testing and end-to-end testing.
- Improved web security using Response Headers.
- Increased request speed using ElasticSearch for rapid access to data.
  Tech Stack: TypeScript, React, NestJs, PostgreSQL, ElasticSearch & Docker.

Programming Internship — April 2021 - June 2021

- Developed UI components using React and Material UI.
  Tech Stack: React and Material UI.

VOLUNTEERING

Cincinnatus Institute of Craftsmanship — *September 2021 - Present*

Technical Coach & Evaluator

- Improved the learning path experience by looking for modern and free alternatives for courses.
- Reduced the learning curve for my students through coaching and training sessions.
- Impacted students through talks on software development and programming.
- Helped improve programming skills giving feedback on projects and teaching students.
  Tech Stack: HTML, CSS, JavaScript, Python, Git, Github.
